

Updates After Last Commit

- Reference commit in this checkout: 7268176 - 2026-08-05 - Bug fixes
- This document summarizes the uncommitted updates made after that commit.

Changed files

- database/schema.sql
- public/app.html
- public/assets/app.js
- public/assets/styles.css
- public/index.php
- src/GameService.php
- src/WebSocketServer.php

Map / movement

- Fixed mobile zoom behavior after pinch.
- Added double tap to zoom/focus a specific section of the active map.
- Added Editor mapa so DM can cut/focus a specific map portion for player view.
- Added Quitar recorte.
- Added bright border on DM view for the focused map area.
- Added movement request preview: clicking/hovering a Solicitud shows a miniature opaque path preview.

Tokens / placement

- Player can only use Colocar once per character per scenario.
- Player token background/color is chosen once and reused.
- Added player rotation buttons.
- Added small arrow indicator to player tokens.
- Copiar vivos now copies only non-player/NPC tokens from previous scenario.

Drawing mode

- Added Dibujar freehand mode.
- Drawing mode replaces token buttons with: Lapis, Borrador, Borrar Todo (DM-only), Tamano: N with + / -, and Salir.
- Drawings are live-visible to DM, players, and guests.
- Drawings do not persist after reload/session.
- Salir clears that player's drawings.
- Players erase only their own drawings.
- DM can erase any drawing or Borrar Todo.
- Drawing point spacing is configurable with DRAW_POINT_MIN_DISTANCE.

Drawing colors

- Added drawing_color to player_characters.
- Default drawing color is #ffffff.
- Existing characters were set to white.
- DM player-token inspector shows the small color circle beside player token names.

Chat / notifications

- Added private player to DM only chat.
- Player chat appears under Codex in the left menu.
- DM sees chats in right-side menu and floating chat windows.
- Chat notifications added.
- DM gets popup notification for movement requests.
- Clicking request notification focuses Solicitudes.

Codex

- Split Conjuros from Acciones y rasgos.
- Codex searches are now name/title-only by default.
- DM monster/creature search still searches traits, abilities, descriptions, etc.

HP / health

- Player tokens can go down to -10.
- NPC tokens cap at 0.
- Player card and DM info can display player HP down to -10.

DB/schema additions

- Added schema support for scenario_map_focus.
- Added schema support for dm_player_chats.
- Added schema support for dm_player_chat_messages.
- Added schema support for scenario_players.rotation_degrees.
- Added schema support for player_characters.drawing_color DEFAULT '#ffffff'.
